Mobb G Selfie World

How to install ?

1. Copy the files in the root directory of GTA V.
2. Launch the program Reshade Exe as admin, now select where you have your Reshade in file
3. Now launch open GTA V, once in-game, press the FN & Home button together to bring up the Reshade menu, then select search and click on the Reshade ini file from GTA V root Directory.
4. Done!
